

Biopulsar-Reflexograph®

Biodynamic Electro-Chirogramme

- for a quick bioenergetic diagnosis of 43 organ zones
- for individual tolerance testing of products and remedies
- for the sales promotion of your products and therapies

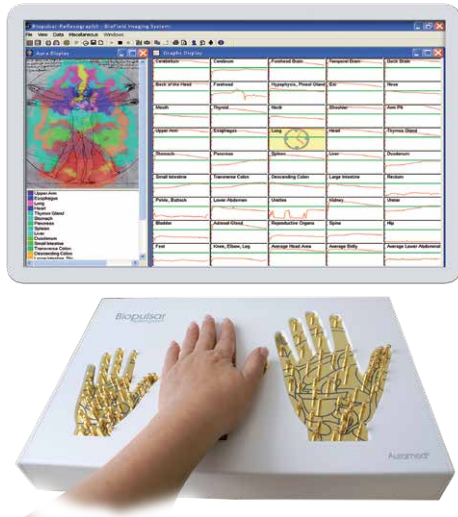

fast • sensitive • verifiable • reproducible • easy to operate

The Reflex Zone Biofeedback

The word "biofeedback" is a description for biological control mechanisms. It is composed from the Greek word "bio" = life, life processes and the English word "feedback" = reaction. Reflex Zones or "somatotopies" (from the Greek words "soma" = body; and "topos" = place, position, location) are areas on the skin surface, which have connections to the internal organs and body structures.

The interpretation of the energetic condition of a reflex zone serves as a method of diagnosis and treatment for regulating the internal organs and the psyche.

The Biopulsar-Reflexograph®

The Biopulsar biofeedback system is a modern, multifunctional diagnostic device for the PC, based on the biofeedback of the hand reflex zones. Within a few minutes a complete bioenergetic analysis of 43 organ zones is generated.

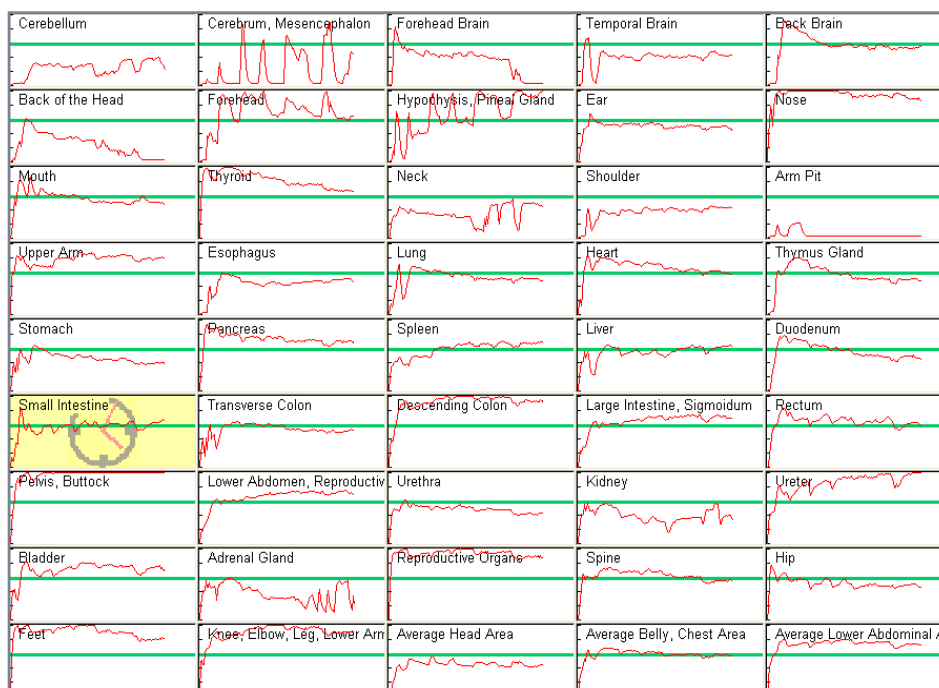

Through a Biopulsar's reflex zone biofeedback scan profound knowledge can be obtained about the bioenergetic field (aura), the life force condition of individual organ zones and organ networks, potentials, causes of field disturbances and paraesthesia.

Areas of Application

In the modern therapy practice the reflex zone biofeedback can be used for individual product and remedy testing, allergy and compatibility testing, control measuring, holistic Aura and life counseling, mental training and proactive medicine.

The Functionality of the Device

- The Biopulsar-Reflexograph® Biofeedback system is a highly sensitive biomedical measuring device, working in accordance with the EC safety regularities .
- The concept of the Biopulsar-Reflexograph® Biofeedback System is based on Eastern and Western holistic philosophies and medical sciences.
- The presentation of the energy system of the human body can be seen in different ways, e.g. through the live biofeedback of the organ reflex zones in real-time, the dynamical whole body aura, the colour vibrational frequency of the organ zones, the activity of the chakras and much more.
- The Biopulsar-Reflexograph® Hand Sensor is a high resolution receiver for biomedical signals of measurements taken from the palm's reflex zones. Every 500 milliseconds (real-time) bio-data of 43 organ zones are measured and transferred to the PC. Through the Biopulsar's various software programmes the data is processed and presented in different graphic representations.
- There is no exposure to the body of harmful or interfering frequencies during the process. In comparison to many other diagnostic devices that emit harmful radiation, only low frequency, absolutely harmless impulses are used for the measuring of skin resistance. Therefore, the Biopulsar can be used on highly sensitive people, people with pacemakers or pregnant women.
- A detailed measuring of the whole body only takes a few minutes. Since the measuring is done via the hand there is no discomfort in having to undress. Immediately the results can be viewed in a clearly arranged format on your computer screen.

The Coloured Holistic Energy Picture (Aura)

The coloured energy (aura) picture of the body and the vibration colours of 43 organ zones instantly convey an extensive picture of the different energy syndromes in the body, which also play a role in the Eastern pulse diagnosis.

The energy colours of the organ reflex zones give the educated healthcare practitioner information about:

- the physical, emotional and mental condition of a person
- the vitality of the organ zones
- acid-alkaline relation of the matrix
- cellular stress and exhaustion conditions
- the diversity of pain qualities based on chi-fullness, chi-emptiness and chi-stasis (according of the TCM pulse diagnosis.)

In most cases, the biofeedback results correspond with the subjective feelings of the client.

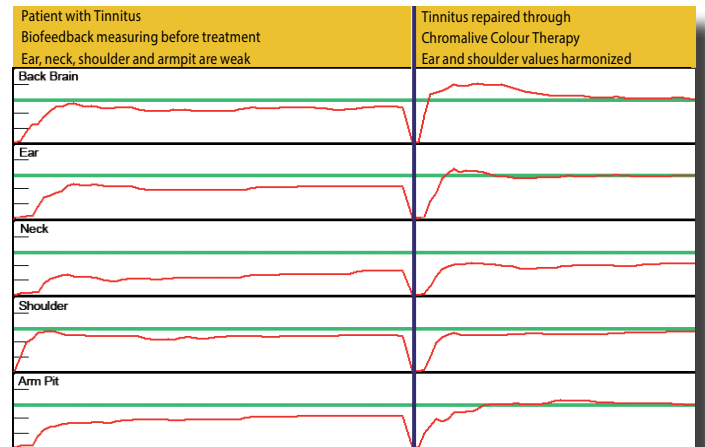

Orange	Cerebellum	Red	Cerebrum	Blue	Forehead Brain
Dark Blue	Temporal Brain	Dark Blue	Back Brain	Yellow	Back of the Head
Cyan	Forehead	White	Hypophysis	Orange	Ear
White	Nose	Green	Mouth	Purple	Thyroid
Red	Neck	Light Green	Shoulder	Grey	Arm Pit
Cyan	Upper Arm	Light Green	Esophagus	Purple	Lung
Purple	Heart	Blue	Thymus Gland	Yellow	Stomach
Magenta	Pancreas	Orange	Spleen	Cyan	Liver
Magenta	Duodenum	Cyan	Small Intestine	Cyan	Transverse Colon
Light Green	Descending Colon	Cyan	Large Intestine	Yellow	Rectum
Red	Pelvis	Blue	Lower Abdomen	Light Green	Urethra
Light Green	Kidney	Purple	Ureter	Light Green	Bladder
Teal	Adrenal Gland	Cyan	Reproductive Organs	Green	Spine
Cyan	Hip	Purple	Feet	Cyan	Knee, Elbow, Leg, Lower Arm
Light Green	Average Head Area	Cyan	Average Belly, Chest Area	Cyan	Average Lower Abdominal Area

System requirement: PC/Notebook with the operating system Window 7 / 8, 10, screen, printer, digital camera (optional).

Effectiveness Control

Through a before and after control measuring the effectiveness of a product or treatment can be instantly seen in detail, satisfying any doubt from the client.

Energetic Disharmony Pattern

There are many people who feel unhealthy and who complain about undetectable discomforts like sleep disorders, irritability, indisposition, exhaustion, weather sensitivity, headaches, vertigo, susceptibility to infections and back pain.

The Biopulsar's reflex zone biofeedback measurement together with the aura picture establishes the different energy patterns, which can then be easily understood by the client.

The results are validated by the subjective feelings of the patient. Through the figurative statement of the organ's bioenergy (body language) the counsellor can understand the client much better.

Increasing the Attractiveness and Success of your Business

Through the Biopulsar-Reflexograph® Biofeedback System you can offer your clients various services such as:

- Advanced bioenergetic health check-up
- Analysis of interfering fields and pain tendencies
- Allergy and tolerance testing
- Product and remedy testing
- Cellular stress detection, levels of exhaustion for individual organ zones
- Bioenergetic matrix analysis of the acid - base balance in the body
- Holistic life counselling
- Proactive healthcare
- And much more

Tolerance Tests of Products

The Biopulsar reflex zone biofeedback measuring is an optimal method to quickly learn the distinctiveness of a person's energy system and her/his individual reaction.

The Biopulsar-Reflexograph® system is a sensitive measuring device that quickly and harmlessly tests the reaction of therapeutic products like Bach flower remedies, Schüssler Salts, homeopathic medicines, nutritional supplements, healing gemstones as well as food, thoughts, etc.

It can show if a person's aura is harmonised by a product or if any undesirable reactions (side effects) can be expected. Even the same medicine made by different manufacturers can cause different people to have different reactions. Thus, some medications may show a positive result with one person, and do absolutely nothing for another person with the same symptom.

With the reflex zone biofeedback measuring an individual's energetic response to a medication or product can be tested in detail.

Proactive Healthcare

Disharmonies in the aura exist long before they manifest physically into an organ problem or in the more extreme cases, an illness. This is the reason why patients complain about discomfort, even though regular medical tests show normality.

With a Biopulsar biofeedback measuring you can conduct proactive healthcare and holistic counselling.

Training

We offer a variety of seminars at the Auramed Academy for working successfully with the Biopulsar-Reflexograph® Biofeedback System.

What does the modular Biopulsar-Reflexograph® Biofeedback Diagnostic System offer?

- Compilation of hardware and software modules, according to your personalised needs.
- Easy to view screen presentations and flexible Windows feature.
- Dynamic biofeedback analysis of 43 organ reflex zones for a clear and detailed bioenergetic syndrome diagnosis.
- Variable settings of the measuring time – e.g. every 500 milliseconds (real-time) a skin resistance measuring takes place through every one of the 43 biomedical sensors.
- Vitality graph gives you a sophisticated analysis of the actual processes as well as the stress potentials in the area of chronic problems.
- Green harmony line for instant display of any organ zone deviations from the ideal, optimum energy condition.
- Extended and comparison measuring features for the therapy control and product and remedy testing.
- Dynamic presentation of the Aura around the whole body for the analysis of the psycho-energetic constitution of a person.
- Summary list of each organ zone with the respective energy colour.
- Dynamic Chakra display with mathematical interpretation and text analysis according to Ayurveda.
- Databank Function: Every energy colour of an organ zone and every Chakra function can be shown with individual texts and pictures. Therefore, the user can create her/his own repertoire of information, products or treatment protocols.
- Record and playback function for short or extended therapy sessions.
- Digital camera connection for the creation of personalised Aura and Chakra pictures.
- Extensive assistant software programmes for the diagnosis support:

Fit-Active Sports & Fitness Software

Personal Trainer Software

Chromalive® Colour Light Application

Holistic Therapy Assistant

Homeopathy Assistant
